Hybrid: A combination of Online, On Site, and/or Online Live instruction is provided by your instructor and your attendance is required.

On Site: This class is offered on site and instructor location may vary. Your instructor may teach class to several locations at the same time. Attendance is required in a classroom.

^This class is offered On Site for the first week. Starting week two, this course will be delivered both On Site and Online Live based on the requirement of when on campus equipment is needed for lab exercises. Your instructor will communicate with you when you may be required to be On Site and when Online Live would be available to you as an option.

∞This is an OER (Open Educational Resources) course, meaning you do not have to buy a textbook. Instead, you will use internet resources and documents posted in Blackboard. If you are taking the course online, you are expected to regularly engage in the course throughout the week, with interactive assignments (such as midweek discussions).

*In addition to regularly scheduled classroom hours, this class also requires time Online. You will need to determine how to best schedule your online time.

Please be advised that low enrollment class sections may be cancelled.

You will be contacted by Student Services with information on other class sections available in alternate formats.
