Δ This class is offered on site for the first week. Starting week two, this course will be delivered both On Site and Online Live based on the requirement of when on campus equipment is needed for lab exercises. Your instructor will communicate with you when you may be required to be On Site and when Online Live would be available to you as an option.

*A combination of Online, On Site, and/or Online Live instruction is provided by your instructor and your attendance is required.

• This is an OER (Open Educational Resources) course, meaning you do not have to buy a textbook. Instead, you will use internet resources and documents posted in Blackboard. You will need to regularly engage in the course throughout the week, with interactive assignments (such as a midweek discussion). You will also be expected to collaborate with classmates as part of a group project. Online students will need a webcam and a reliable audio recording device.

« Online course delivery requires you have access to a computer and the internet to receive instruction and participate in class activities. While there are no scheduled meeting times, you are responsible for meeting course deadlines as set by the instructor. For additional information about online resources available at Northwood Technical College go to <https://learningcommons.northwoodtech.edu/resources>. You are expected to engage in interactive assignments throughout the week and you will be asked to record speeches in front of a live audience for this class.

> This course will be delivered virtually using web conferencing in real-time on the days and times scheduled. Attendance is expected during designated class hours by logging into your course remotely. Students will not be on campus to attend this course.

🗣 In addition to regularly scheduled classroom hours, this class also requires time Online. You will need to determine how to best schedule your online time.
