Growing Native In Your Own Backyard

Session Descriptions

9:30 a.m. - 10 :30 a.m.

Designing and Incorporating Native Plants into Your Yards and Gardens

Diana Alfuth, Horticulture Outreach Specialist, former Education Specialist, UW-Extension

No matter the size of your yard and gardens, you can incorporate native plants and all the benefits and beauty they offer. This presentation will cover a step-by-step process to design your landscape, and how to include, choose and combine native plants to create beautiful spaces for people and wildlife to enjoy.

11 a.m. - 12 p.m.

Planting for Pollinators: Creating Habitat to Protect and Conserve Our At-Risk Pollinators

James Wolfin, Sales Representative, Twin City Seed Co.

This workshop examines how residents can best design and manage their yards to promote the conservation of our at-risk pollinators. From project planning, to principles of design, project types, and installation this workshop covers a breadth of content with the hope of making DIY projects feel attainable to attendees. This workshop draws heavily on the teachings of the Lawns to Legumes, a Minnesota State pollinator conservation program.

1:15 p.m. - 1:45 p.m.

Introduction to Homegrown National Parks

Margaret Smith, Executive Director, Trumpeter Swan Society and Wisconsin Master Gardener

Discuss the importance of your individual garden for protecting nature right now, and how to sign up and get your garden twinkling as a firefly location on the Home Grown National Parks (HGPNP) map. Margaret will showcase some of the native plants in her garden (a relaxed "messy" but lively garden) to inspire what you can do!

1:45p.m. - 2:45 p.m.

Fresh Finds: New Plant Introductions and Native Selections for Midwest Gardens

Johanna George, landscape designer and horticulturist, Bailey Nurseries

Join Bailey Nurseries' Johanna George for a look at what's new and noteworthy in the world of shrubs and perennials. She'll showcase recent introductions from Bailey and their nationally recognized brands—First Editions® Shrubs & Trees and Endless Summer® Hydrangeas—along with regionally adapted native selections increasingly available at local garden centers. Drawing on her years of experience as a horticulturist and landscape designer in the Upper Midwest, Johanna will share practical insights on how these plants can thrive in our climate while supporting resilient, beautiful landscapes.

Program notes:

- Lunch and snacks are included in your registration fee. A filtered water filling station is available – feel free to bring your own water bottle for the day. **If you have dietary restrictions, please email wendy.loy@NorthwoodTech.edu no later than March 6.**
- Vendors will be on hand and there will be information on how to find answers to your garden questions, plus interactive demonstrations.
 - There will be on-site garden tool sharpening available. See event webpage for details regarding fees, drop-off of tools, etc.
- The St. Croix Valley Master Gardeners' will have raffle items which support their grant programs for community garden projects and horticultural scholarships.
- In case of inclement weather, check the college webpage at www.NorthwoodTech.edu
- Online registration is encouraged. **Registration deadline: March 6, 2025** (Lunch not guaranteed for registrations received after this date.)
