

Travel During Fieldwork

You will need reliable transportation to meet the demands of Fieldwork. Fieldwork I may be as far as 2 hours from your assigned campus. Fieldwork II may be anywhere, including outside the Northwood Tech district.

When placing students for fieldwork, the Academic Fieldwork Coordinator considers the students assigned campus, not home address. Multiple factors are considered when placing students for fieldwork. The Academic Fieldwork Coordinator makes every attempt to place students close to their assigned campus or requested location, but this is not guaranteed.

It is the students' responsibility to pay for transportation required for fieldwork.
