## ***WELCOME TO A NEW SCHOOL YEAR!***

I hope your school year is off to a great start! I am looking forward to working with you and your students again this year! I understand that throughout the year, individual schools may find themselves in changing situations/restrictions due to Covid, but I will be doing my best to make sure that I am assisting/helping in any way that I can. So with that, I have a few items I want to touch on as we begin the start of the year!

As you settle into the school year, please keep Northwood Tech in mind when looking for community partnerships in your ACP planning.

### Popular Presentations:

- Career Clusters
- Discover Your Personality? (Similar to True Colors)
- Soft Skills vs. Hard Skills
- What is a Technical College?
- Presenting Yourself Professionally
- Resume Builder Workshop

## **Name Change : Introducing Northwood Technical College!!**

First things first, some of you may have already heard and some of you may have a lot of questions regarding it, but we are no longer known as WITC. We have officially renamed and rebranded to Northwood Technical College! We are extremely excited to have launched our new name in August and look forward to sharing more about our rebranding with you throughout the year. I have attached a PDF sheet to this email that includes a lot of information on why we rebranded and the process we went through to accomplish it. This year (hopefully in the next couple of weeks- depending on circumstances) I will be able to drop off some swag bags that have new Northwood Tech items in there for you! We are also excited to now officially have a mascot, Blaze the Bear. To reassure, however, everything else about our college has stayed the same. Same locations, same programs, same admissions process, just with a new, fresh name and look! If you have any questions on this, please don't hesitate to ask!

## **Visitor Status at Schools**

Now that I have addressed that, I wanted to check on the status of whether college reps/visitors will be allowed at your schools. At this time, I am excited to be allowed back traveling for the college, so I am available for in person visits and presentations (if this changes, I will let you all know ASAP.) However, I will be as flexible as I need to be to make sure I am serving you and your students in the best way possible. If your school has restrictions on visitors at this time, I am more than happy to still offer virtual visits with your school and/or virtual meetings with students who may be interested in Northwood Tech. If you are offering in person visits, I would love to start setting up dates/times to come visit your school!

## **APPLY FOR FREE TO NORTHWOOD TECH!**

*For a limited time only, we are waiving application fees!*
