CLINICAL SKILLS LIST

Name _____

543-102 Nursing Skills	Lab	C1	C2		Lab	C1	C2
Physical Assessment				Specimen Collection			
General survey				Blood glucose			
Integumentary				Wound			
Musculoskeletal				Urine			
Head and neck				Stool			
Eye and ear				Occult blood			
Neurological							
Respiratory				Enteral tubes			
Cardiovascular				Tube feeding administration			
Gastrointestinal				Irrigation			
Breast/testicular				Suction			
Aseptic technique				Urinary catheterization			
Sterile gloves				Bladder irrigation			
Blood pressure				Enema administration			
Oxygen administration				Ostomy care			
Pulse oximeter							
Incentive spirometer				Bandages and binders			
Tracheostomy care				Wet-to-dry/dry dressing change			
Suctioning				Wound irrigation			
Medication Administration				543-112 Advanced Nursing Skills			
Enteral medications				Peripheral IV start			
Parenteral medications				IV push medications			
Intradermal				Central lines			
Subcutaneous				Maintain patency			
Intramuscular				Dressing/cap change			
Topical, transdermal, vaginal				Administer meds			
Eye				Administer TPN			
Ear				Draw blood samples			
Inhalation				Blood administration			
				Nasogastric tube			
IV Therapy				Insertion			
Add/change IV solutions				Removal			
Prime/change IV tubing				Chest tube maintenance			
Set IV flow rate				EKG interpretation			
Intermittent meds—IVPB							
IV site dressing change							
Discontinue IV							
Change IV line to saline lock							

Lab = Skill performed in lab simulation according to criteria under instructor direction **Initials**

C1 = Skill performed in clinical with direct supervision

C2 = Skill performed independently with indirect supervision
