

Requirements for Fieldwork

Students meet one on one with the WITC Academic Fieldwork Coordinator in second semester. This conversation allows the student to provide input for his/her fieldwork experience. The conversation is intended to gather an inclusive picture of the student to aid the WITC Academic Fieldwork Coordinator in finding ideal fieldwork placements for each student.

Placement Requirements

- Students are required to provide proof of current Mantoux test.
- Students are required to provide documentation of Hepatitis vaccination.
- Students are required to provide documentation of immunization record.
- Students are required to provide current CPR documentation.
- Students are required to have background check for state where fieldwork is occurring.
- Health Insurance may be required by some fieldwork sites. WITC does not provide health insurance to students. Students are advised to carry their own health insurance.
- Students may be required (based on fieldwork site requirements) to attain other immunizations, physical or background checks. The student is responsible for the cost of any fieldwork requirements.
- Students may be required (based on fieldwork site requirements) to attain specific training prior to attending fieldwork (such as/but not limited to: computer documentation training and First Aid training). The student is responsible for the cost of any requirements.
- Students may not work at the setting where fieldwork is completed.
