STUDENT RESOURCES FOR DOSAGE CALCULATION EXAMS

A thorough understanding of dosage calculation in order to provide safe nursing care is a priority for the Northwood Tech ADN program. To support student learning, a gradual progression of unassisted knowledge of dosage calculation facts will be expected. The following chart describes the level of assistance that students may use by semester:

ADN Semester	Assistance for Dosage Calculation that is Acceptable (*all resources provided by the instructor ONLY)
ADN Sem 1	10543101 Nursing Fundamentals: one page copy 10543102 Nursing Skills: one page copy 10543103 Nursing Pharmacology: no resources allowed 10543104 Introduction to Clinical Care: no resources allowed
ADN Sem 2	10543105 Health Alterations: no resources allowed 10543106 Health Promotions: no resources allowed 10543107 Clinical Care Across the Lifespan: one page copy 10543108 Introduction to Clinical Management: one page copy
ADN Sem 3	10543109 Complex Health Alterations 1: no resources allowed 10543110 Mental Health & Community Concepts: no resources allowed 10543111 Intermediate Clinical Practice: one page of formulas, but no conversions 10543112 Advanced Skills: one page of formulas, but no conversions
ADN Sem 4	No resources allowed for any course

All copies of resources will be provided by the instructor only. Student-created resource pages are not allowed and will be removed by the instructor and considered as an academic dishonesty infraction.
