Schedule an Academic &  
Career Planning  
Presentation

WITC's Career Specialists provide a variety of presentations and activities to engage and educate your students about their options post-graduation, including possible education and career paths. Career Specialists will work with you to tailor the presentation and activity to fit your students' needs.

*Contact your local Career Specialists to schedule an Academic & Career Planning presentation.*

Activities to help students recognize their preferred learning styles, assess their personality types and learn how to incorporate what they learn about themselves into their academic career planning.

Interactive presentations that explore opportunities and career clusters at WITC. Topics can be applied to a variety of post-secondary plans.

Whether it's facilitating a program shadow or conducting a resume and interview workshop, Career Specialists can help your students feel prepared for their next steps in life.

The Career Specialist can be a resource for your students as their interests evolve or change throughout middle school, high school and beyond.
