#### HOMES Grant Equal Opportunity, Funding, and Reporting Statement

##### Equal Opportunity

No person may be denied admission to, participation in, employment at, the benefits of, or be discriminated against in any service, program, course or facility of Northwood Technical College because of the person's political affiliation, age, race, creed, religion, color, handicap (disability), marital status, parental status, sex, national origin, ancestry, sexual orientation, pregnancy, arrest record, conviction record, service in the armed forces, genetic testing, or use or non-use of lawful products off the College premises during non-working or non-class hours.

##### Funding

The 3-year, \$9.8 million Housing Opportunity & Mobile Education Solutions (HOMES) project is funded by the Wisconsin Department of Workforce Development. Impact Seven will provide an additional \$20 million for sustainable affordable housing options within the district. Northwood Technical College will provide an additional \$1.25 million to conduct advanced manufacturing training for underemployed, unemployed, and special population individuals.

##### Reporting

General demographic and job placement information of program participants will be used and reported to the Wisconsin Department of Workforce Development as one measurement of success for this grant-funded program.
